5* Walliserhof Grand-Hotel & Spa Saas-Fee

The 5-star Hotel Walliserhof Grand-Hotel and Spa has set itself the goal of creating unforgettable holiday experiences for its guests. So everything is under the sign of personal and active holiday moments, paired with the luxury and comfort of a 5-star hotel. The cosy ambiance and relaxed atmosphere create a carefree holiday experience. The hotel's own activity programme with guided hikes, bike tours, accompanied ski excursions to the Secret Places of Saas-Fee, as well as the indoor and outdoor fitness offers ensure that there is never a dull moment.

To compensate, the Walliserhof Grand-Hotel & Spa offers a 2100m² spa area with indoor pool. A wide selection of spa treatments combined with high-quality products, as well as masterful sauna infusions, ensure perfect relaxation. Culinary finesse and master-class culinary craftsmanship delight not only gourmets.

Saas-Fee has long been considered an insider's tip for those seeking relaxation and sporty, active nature and outdoor holiday guests.

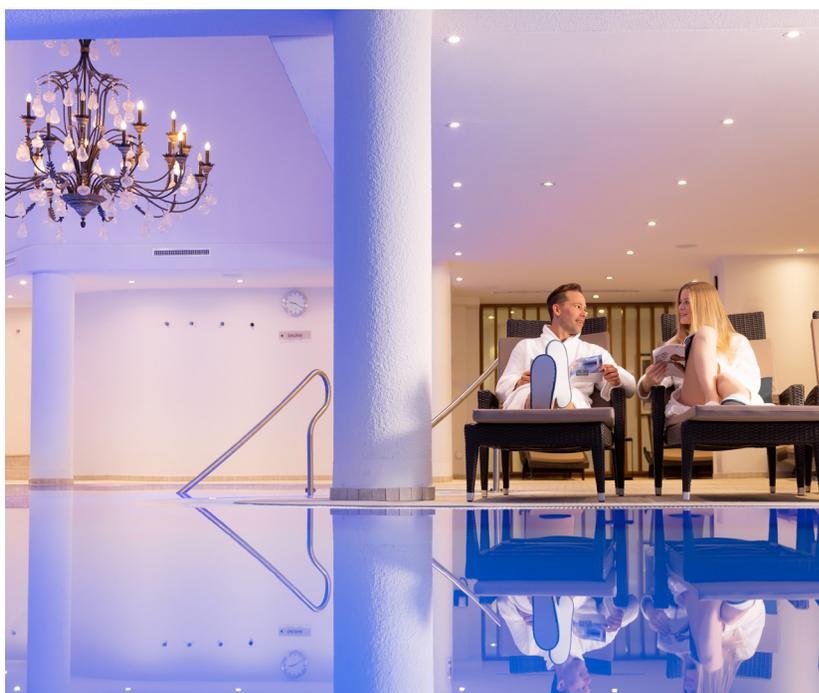

History:

The „Walliserhof“ was originally built in 1883 as the Grand Hotel Belle Vue and the second hotel in Saas-Fee. It was renamed Hotel Walliserhof in 1951. From 1983, the hotel was run as „FerienArt & Spa“ for 30 years. In 2019, the hotel was completely renovated and reopened in December under the name Walliserhof Grand-Hotel & Spa.
